

# Edge configuration for 'Internet Explorer mode' settings

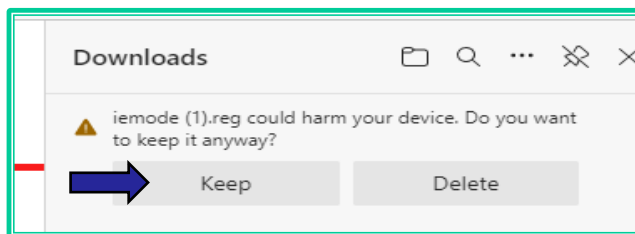

- > Follow the next steps on each computer where PANEX applications are used.
- > This to enable Edge to work for some specific Internet Explorer supported applications
- > Attached list can be used as guidance towards correct browser for the respective application

## 1) Download iemode.reg

- a) Go to [Honda Motor Europe File Share \(sharefile.eu\)](https://sharefile.eu) in Edge
- b) Check 'iemode.reg', 'I agree Terms and Conditions'
- c) Press Download

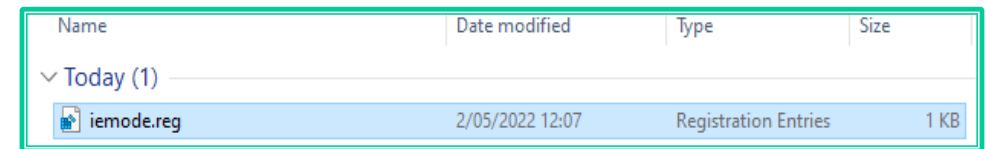

## 2) A security message will be given. Click 'Keep'

## 3) Click on the 'show in folder' icon on top of your browser

## 4) Execute the downloaded file by double clicking on the iemode.reg file

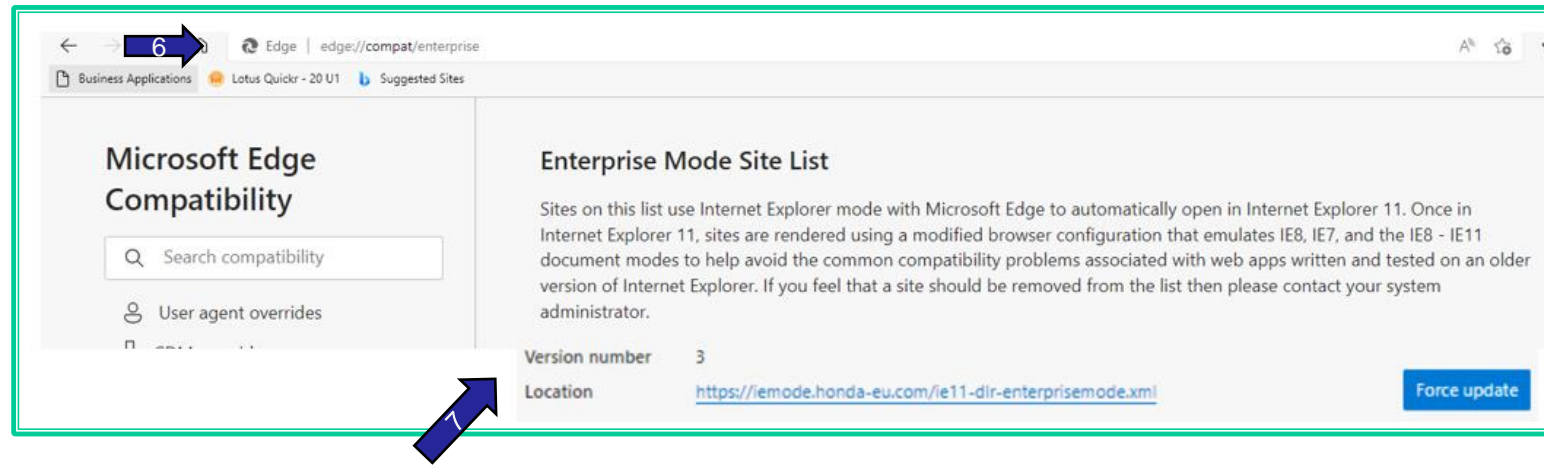

## 5) Restart your computer

# Edge configuration for 'Internet Explorer mode' settings

2

6) Open Microsoft Edge.

Enter 'edge://compat' in the address-bar and press enter

7) If next to location 'https://iemode.honda-eu.com/ie11-dlr-enterprisemode.xml' is mentioned, the setup is successful. The version number will mention 3 or higher

8) In case of issues or questions please call Honda Service Desk.

**Once above steps are executed and the setup was successful, no further steps are needed and you can use Edge for the applications indicated in attached Excel.**
