Installation document for alcohol interlocks

Safety risks at installation and items to be considered

When installing on vehicles equipped with airbags, please make sure to never install any devices or wiring in a place that could interfere with the airbag cover parts or airbag operation. In the event of an emergency, it may have a serious impact on passengers.

Pin 2 of 2 pin connector (Male)

When installing the alcohol interlock device on the dashboard, install it so that it does not interfere with the drivers view or controls of the vehicle.
